## Geneva architecture Full day tour

This day excursion will allow you to discover two very different districts of Geneva from an architectural point of view:

The international district, home to many international organizations and NGOs, has been a wonderful playground for world famous architects in the recent years.

On the opposite side of the canton, the city of Carouge, founded in the 18th century, boasts an Italian flair with colourful façades, a vibrant market square and lots of timeless crafts shops.

*This is a walking tour using public transportation from one district to the other. Make sure to wear comfortable shoes and clothing according to the weather, and to carry your transport card.*
