

Lake Geneva - Cheese, Wine, Chocolate and Watches

3 days / 2 nights

Day 1

Cheese, chocolate and wine in Gruyères and Lavaux

Departure in direction of the Gruyère region where you will visit an alpine cheese dairy. You will attend the production of the famous Gruyère AOP in the most traditional way. This cheese is made in Switzerland since 1115. 90 gallons of raw milk from cows that graze the lush grass and fragrant flora of alpine meadows situated between 800 and 1600 m above sea level (2400-4800 ft) are necessary to produce one 35-kg-wheel of Gruyère cheese. The cheese is then matured during 6 to 24 month in a cellar to develop all its flavors.

After the visit, it's time to taste the production with an aperitif composed of cheese and local wine.

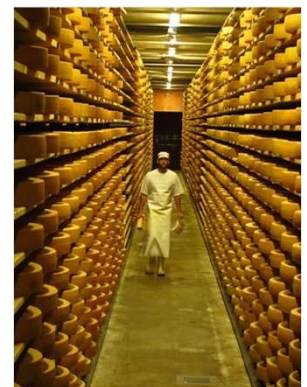

The day will continue with a bit of sweetness in the village of Broc, where you will visit the chocolate manufacture Cailler. In the unique museum, you will uncover the secrets of swiss chocolate and indulge your palate with an amazing variety of flavours during a chocolate tasting.

With a 10-min drive, you will reach the charming village of Gruyères, the perfect place to taste the real swiss fondue.

In the afternoon, you will visit the wine region of "Lavaux" registered in the heritage of Unesco, and which is between Lausanne and Vevey. Always on secondary roads, you will take "La Corniche" balcony overlooking Lake Léman and on which are hung the beautiful villages of Riex, Epesses and Chexbres.

In one of these villages, a winegrower will present his estate and his production to you with supporting tastings.
