After that spectacular cruise, you will disembark directly at **Chillon Castle**, the most visited castle of Switzerland from the 11th century. Admire its location on a small island in the western end of Lake Geneva

Constructed by the House of Savoy in the 12th century on an island measuring 100 meters in length and 50 meters in width, this imposing fortress guarded a strategic passage between the Vaud Riviera and the Rhone Valley. The castle narrates a significant part of Switzerland's history, including Bern's conquest in 1536 and the Vaud's in 1798. It is presently Switzerland's most visited historical monument, with more than 400,000 visitors annually.

Then you will go to Montreux city, just in 5' drive.

**Montreux** enjoys a privileged location between the lake and the mountains, creating a mild and pleasant microclimate throughout the year - an ideal environment for beautiful flowers and tropical plants. That's partly why we love strolling along its flower-lined quays, gazing out at Lake Geneva. Culture-wise, jazz lovers have flocked to Montreux since 1967, and over the decades, the Montreux Jazz Festival has become an unmissable event on the shores of Lake Geneva. But we can't resist the charm of the Belle Époque architecture that hides many intriguing stories.

Then, climbing by cogwheel train to Rochers de Naye offers a unique panoramic view of the Swiss and French Alps: from the Eiger to Mont-Blanc and down to Lake Geneva – the cog railway takes guests up to an altitude of around 2,000m, where various experiences and opportunities for discovery begin.

In the afternoon, visit the wine region of "Lavaux" registered in the heritage of Unesco, between Lausanne and Vevey. Always on secondary roads, you will take "La Corniche" balcony overlooking Lake Léman and on which are hung the beautiful villages of Riex, Epesses and Chexbres. In one of these villages, a winegrower will present his estate and his production to you with a pleasant degustation.
